Temple Not the Only Structure Which Makes a Hit With the

That Sait Lake is the grandest city in Republic and is without a peer in the matter of modern progress is the opinion held by a Judge in Memphis. Tenn., who has written to County Clerk James. It seems that there is a movement to erect a public building in Memphis and the Southerner wrote to get some information from the County Clerk. The letter is as follows. "County Clerk. The letter is as follows." County Clerk. Sait Lake City, Itah:—Dear Sir.—Our County court has just passed a resolution to build a court-house at a cost of one million dollars. There is also a movement on foot to build a joint city and county building, which, in my judgment, is the proper thing to do. "I have before me a very handsome cut of your city and county building, which, in my judgment, is the proper thing to do." I have before me a very handsome cut of your city and county building, which, I notice, cost just what we propose to pay for a county building. Now, what I want to know is this. Are the several departments in your building carried on without friction between the city and county? Is your building sufficiently commedious to meet the demands for a period of say thirty or forty years, with your population increasing as rapidly as it is? In your judgment, would the interests of both the city and the county best be subserved by the erection of a joint building? Has your building equipments of modern and up-to-date vaults, etc." As a citizen and an officeholder, I have great interest in the matter and sm exceedingly anxious to ascertain all possible information on the subject and from what I know of your most magnificent city, I am satisfied that in the matter of modern progress Sait Lake City is without a peer and is today the grandest city in the Republic.

"Thanking you an advance for the information and with a genuine and sincere hope that I shall some day be able to return the favor, I am, your very truly,

"A. I WILLIFORD."

"Justice of the Frace, Memphis, Tenn."

County Clerk James replied to this letter in the affirmative on all counts. He wrote that there was no friction, since the four years during w ter of modern progress is the opinion held by a Judge in Memphis, Tenn., who has
